Memorandum

Date: 10/23/13
From: Ron Crider, Project Manager
To: Neil Starkeybahr

Pilgrim Communications Inc, (KVLE-Tower Site) 1445 Highway 135 North Gunnison Colorado will be working with our Tenant (GOGO) and their contractor to install an equipment shelter on our property. Construction is schedule to start Tuesday October 29, 2013 and expected to take approximately one week. The location for this building will be the permanent location. This equipment shelter will house the communications equipment necessary for GOGO to transmit and receive signals to commercial and private aircraft for internet and Pilot communications. This equipment may be connected to temporary antennas that may be placed on the existing KVLE tower, pending Gunnison approval to construct a replacement tower. GOGO will also be installing electricity, cable and Fiber to this shelter at this time. GOGO will use only state licensed electricians and Electrical contractors for this project. This shelter will require no water or septic connections. No one will be working or residing in this shelter other than to repair or replace the internal equipment.

Attached please find the technical specifications on the Shelter as well as the site plan showing exactly where the shelter will be place on the property including all connections.

Should you have any questions please contact me at 772-770-9000
